**2012 "Creatura Botaniche: Piante e Forme Umane Congiunte" (The Botanical Creature: Plant and Human Forms Conjoined) at Castello di Galeazza, Pepoli, Emilia-Romagna, Italy.** Opening in April, this solo show of prints, luminaires and light columns hangs within the castle residence, in castello's extensive gardens, and in a horse stables modified as an exhibition space. Work ranges from low relief plant collagraphs printed on large body image photography to botanical lanterns to candle lit columns created as part of the ongoing arts and ecology project, Human Tracks: Artful Dialogs with Place. While some prints are mounted on stretched canvas, other prints are fused to sailcloth and grommited canvas with raw bees wax. Creatura Botaniche runs through October 2012.

**2011 "Human Tracks: A Barnyard Collaboration among species".** An installation at Goddard College in July of ten votive columns mounted on birch stumps. These candle lit luminaires are made with rubbings on kozo of goat-chewed birch trees in our back paddock in Thorndike, Maine. The columns themselves are made of sailcloth and are part of an-going site-based arts and ecology project. 3 of these votive columns were installed again in October in conjunction with the conference Making, Meaning and Context: A Radical Reconsideration of Art's Work, at College of the Atlantic, and in Crevelcore Italy in spring 2012.
